## Internship – Adopt OpenJDK developer

Red Hat OpenJDK QA team is looking for two students interested in depths of java. You will have an opportunity to work on real-life complex issues of such huge project as OpenJDK definitely is. You will have a chance to work with best java engineers on world every day and you will be \*growing\* under their close teaching and guidance.

### Adopt OpenJDK developer

Adopt OpenJDK is effort, introduced by OpenJDK governing board nearly 5 years to enable community of OpenJDK to provide OpenJDK to itself. However this effort is dangling from nothing to nothing. Brno OpenJDK QE team have a plan how to rise a competition here. For that, you will be a central designer, coder, maintainer, administrator and lead. Main goal is to have open builder for Openjdk with binaries offered on public web and public build scripts.

### Requirements:

- Student in an Information Technology related area
- huge commitment to coding, you will work on your own (with senior leadership of course)
- knowledge of java - brief knowledge of java EE,
- knowledge of web technologies - overview of CSS, JS
- aligned with at least some design skills
- well maybe you do not need to know java at all, but then you have to love it (java), and you have to have other server-side language (php is not language of choice) in hand!
- Eager to continuously learn new technologies
- User level experience with Linux
- Communicative level of English
- basic overview of virtualization
- basic overview of bash is advantage
- knowledge of hosting market and hosting possibilities are huge advantage, as your work will be in public domain.
